THE COUNSELING & MENTAL HEALTH CENTER

The following packet includes the paperwork for first appointments at the TCU Counseling, and Mental Health Center (CMHC). <u>Our Walk-in Clinic Hours for first appointments are Monday through Friday: 10AM-12PM and 1-3PM.</u> Enrolled students are asked to print out these forms and complete them prior to visiting the Walk-in Clinic. Students are advised that the completed forms must be delivered in person, and cannot be delivered by fax or email, as therapist will only review forms delivered by students during the Walk-In Clinic Hours. In addition, students are advised that completing the intake forms does not establish a therapeutic relationship with any staff member of CMHC. During the Walk-In appointments, the student and a CMHC counselor will decide if counseling at CMHC is appropriate; and if so, the student can then schedule counseling appointments at CMHC. Students experiencing a crisis/emergency can visit CMHC Monday through Friday from 8:30AM-4:30PM, as CMHC has a crisis counselor available during these times. Students experiencing a crisis/emergency after hours should contact the Campus Police at 817-257-7777 or call 911.

TCU Counseling and Mental Health Guide to Services & Informed Consent to Treatment

Welcome to the TCU Counseling and Mental Health Center (**CMHC**). This handout summarizes important information that you should know about our services. Your counselor will discuss this information with you and answer any questions you have about our services.

Counseling Services: CMHC provides short-term individual and couples counseling, as well as group counseling, to fully enrolled TCU students. Our counselors are licensed psychologists, licensed professional counselors, licensed social workers, and graduate level trainees under the supervision of a licensed staff therapist.

- Brief Therapy Model: CMHC utilizes a short term treatment model, which includes a 7-session per semester limit for individual counseling. Your individual circumstances will guide our recommendation on whether your needs can be addressed appropriately through short-term treatment. The initial consultation does not count as a counseling session.
- **Referrals**: Referrals to other practitioners/agencies may be made for concerns that require long-term care, more frequent appointments, or are beyond our scope of expertise. These referrals may be made following the initial consultation, after counseling is completed, or at any time during the course of treatment.
- **Group**: There is no session limit for group therapy.
- Counselors do not provide evaluations for disability determinations or academic accommodations, though we can refer you to off-campus providers for these services.

Psychiatric Services: CMHC employs a board-certified consulting psychiatrist who conducts psychiatric evaluations, medication consultations, and medication management. Clients desiring a psychiatric evaluation must be referred by their CMHC counselor. Therefore only students engaged in concurrent counseling at CMHC are eligible to seek services from this psychiatrist. Students not engaged in counseling at CMHC will be referred to a psychiatrist in the community.

- If you are looking for long-term management of your medications or need a referral for medication only, a CMHC counselor can help you find a referral in the community.
- CMHC does not provide medication management for stimulant (ADHD/ADD) medication.
- The consulting psychiatrist does not provide emergency prescription services or evaluation for disability determinations.

Eligibility for Counseling Services: Our services are covered by student tuition fees at no additional cost to students. Thus, you must be a fully enrolled TCU undergraduate (degree seeking) or graduate student (enrolled in course lectures/classes). We do not provide services to benefits-eligible TCU employees (even if you are a student) or families of students.

No-Show Policy: Any cancellation less than 24 hours in advance is considered a "no-show" and will count as an appointment. Students who "no-show" their appointment two times may lose their privilege of seeking services at CMHC, and will be given outside referral sources to continue their care. This policy reflects our desire to benefit as many TCU students as possible.

Appointments: The Center is open Monday through Wednesday 8AM to 8PM, and counseling appointments are typically scheduled from 9:00AM to 7:00PM these days. The Center is open 8AM to 5PM on Thursday and Friday, and counseling appointments are typically scheduled from 9:00AM to 4:00PM these days. <u>Crisis appointments for students in emergencies are available Monday through Friday from 8:30AM to 4:30PM.</u> We are closed on official holidays and University closings. Psychiatric appointments are available Monday through Friday from 8:30 a.m. to 2:00 p.m. Appointments are scheduled by calling (817) 257-7863.

After-Hours Emergencies: Except for University closings and holidays, a crisis counselor can be reached by calling the Campus Police, 817-257-7777. Emergencies are urgent issues requiring immediate action. Calling the Campus

Police after hours does not constitute a confidential call, and University Officials will be aware that you requested to speak with a crisis counselor. Anonymous crisis services can be reached by calling the National Suicide Prevention Hotline, 1-800-723-8255.

Confidentiality of Information

Counselor Signature

- The Counseling Center adheres to state law and ethical standards which require that all client information be held in confidence. We reserve the right to consult with our colleagues within the Center, as needed, to aid in our work with you. To facilitate good health care, we may share relevant treatment information with the professional staff in the Health Center. Because we are co-located with TCU Alcohol and Drug Education (ADE), we may become aware that you use ADE services. However, the Counseling & Mental Health Center is a separate entity from ADE: we keep separate records, and seeking services at ADE does not constitute being a client of the Counseling and Mental Health Center.
- No confidential information may be released outside the CMHC without the written consent of the client unless one of the following conditions occur:
 - 1. There is a risk of imminent harm to the student or others. In the event that there is a potential danger to self or others, we reserve the right to contact University officials, such as the Campus Life Deans and/or the Campus police.
 - 2. The clinician has reason to believe that a child, elderly, or handicapped person is in danger of or is being abused or neglected.
 - 3. The counselor has been served with a court-ordered subpoena to release information.
 - 4. There is reason to suspect that the client has been the victim of sexual exploitation by a former mental health provider during the course of treatment.
- Graduate level trainees under the supervision of a staff therapist videotape their sessions strictly for training purposes. These trainees will explain this process and ask that you provide written consent prior to videotaping. You have the right to decline this request as well as request that your counselor be a licensed staff therapist. The benefits to seeing a graduate level trainee who is under supervision of another licensed therapist can be discussed during this initial session.

<u>Benefits and Risks of Counseling:</u> Counseling involves benefits and risks. Benefits may include solutions to specific problems, improved emotional health and well-being, increased understanding of self, improved relationships, improved academic performance, and increased ability to handle stress. Although counseling can be beneficial to many people, it may not be helpful for everyone. Therefore, it is essential that you discuss any questions or discomfort you might have with your counselor.

I have read and understand these condition and Mental Health Center. I also acknowled	ns of services, and I consent to receive services at the TCU Couns alge that I can request a copy of this form.	eling
